

Update on 9/11 – 2006-2011

After further 4 years, the false-flag action of 9/11 remains officially unresolved – no, not quite unresolved, whoever has eyes and a minimum of brain knows, that the official story is a fairy tale. The real culprits and their fellow have, however managed the thing, which should really be impossible: to defend their position towards all the Mainstream Media in nearly all nations, while an increasingly large and increasingly frustrated audience cry foul and puzzled editors wonder why their subscribers turn their back to them.

Having written some essays on 9/11 [^{1,2,3,4,5}], I have felt that the time has come to make a new update, based on the my daily entrances in "Alternative View" from September 2006 to August 2010 [⁶]. I found 312 entrances in Chap. 2 (9/11) in these 48 months, which were evaluated for new (to me, at least) and essential information.

The Israeli Influence, Older Indication

9/11 was – certainly successfully – carried out in order to stimulate *Islamophobia*, among a few other targets (*warfare-arguments, concealing a stolen presidential election, disruption of civil rights, richness through speculation through foreknowledge, insurance through betrayal, cheap demolition of asbestos-infested skyscraper*). The additional mental paralysis of the press worldwide was a mean for carrying the crimes out and therefore ascertained beforehand; it was a precondition, probably not a target. Whatever the order of reasoning, Islamophobia is now so complete, that touching the issue of who were in majority (although not alone) responsible for 9/11 is bound to lead to accusation of anti-Semitism, because Israeli nationals (including double American-Israeli citizens) dominate this field. This is not the reason for mentioning this fact, but it does not serve finding the truth that the issue is given immunity.

The Jewish domination was largely known before: **1.** The leasing process of WTC-1 and -2 was a purely Jewish affair; **2.** The demolition of the three towers (including WTC-7) resulted in an unusual 'damage-claim' (insurance-fraud) in favour of Larry Silverstein; **3.** Details of the demolition process are largely concealed, but one of the cars, which had transported explosives, was a white van from Urban Moving Service, owned by a fugitive Jew, Dominique Suter, in the meantime back in the United States [^{7,8}], enjoying extensive federal funding; **4.** This van was driven by 'the five dancing Israelis,' temporarily arrested while celebrating and filming the collapsing WTC in a disturbing way, one of them dressed as an Arab – an exaggerated way to stimulate Islamophobia, had they gone away with it; **5.** These five were flown-out to Israel after 71 days while approx. 200 Israelis, mainly 'art-students,' who were arrested and expatriated in the days immediately after 9/11; **6.** All the aircrafts allegedly hijacked started from airports where security issues should be controlled by a Dutch-Israeli company, ICTS, dominated by previous Israeli Shin-Bet agents, or a subsidy; **7.** Two workers from the Israeli-owned firm Odigo received a warning by e-mail from Israel, two hours before the first plane hit the WTC; **8.** Among the victims in the WTC, there were ~14% Jews. There are ~25% Jews in New York City, and knowing the Jews' affinity for trade and banking (just the author's bias?), there were probably more than 25% Jews working in WTC, indicating a disproportionate warning of Jews before the assault; **9.** The attack mainly benefitted Israel, and within minutes former Israeli PM Ehud Barak, in a comment from London, declared Osama bin Laden the principal suspect [⁹], two hours before Bush 2nd marketed this detail of the official fairy-tale; **10.** On the very day, an Israeli TV-team recorded jubilant Palestinians on the background of 9/11. Later, a Finnish journalist recognized a woman with particularly thick glasses, who had participated. She told a different story: at the day nobody had heard of any WTC-attack. An Israeli TV-team arrived and wanted to make a short scene of jubilant Palestinians. The desired mood was created by sweets for the children and money for the adults – so much for this spontaneous TV-clip.

There more indices, linking 9/11 to Israel; however, without cooperation from American authorities (whatever their incitements), 9/11 had not been possible.

Additional Signs Implicating Israelis

Between Aug. 26 and Sept. 11, 2001, a group of speculators, identified by the American Securities and Exchange Commission as Israeli citizens, sold "short" a list of 38 stocks that could reasonably be expected to fall in value as a result of the pending attacks [10]. Mossad warned CIA of attacks - They offered no specific information about targets, but they did link the plot to Afghanistan-based terrorist Osama bin Laden, and they told the Americans there were "strong grounds" for suspecting Iraqi involvement [11]. On 9/11 at 4:11 pm, hours after the FAA grounded all civilian domestic and int. incoming and outgoing flights to and from the United States, a full El Al Boeing 747 took off from JFK bound for Tel Aviv, authorized by the direct intervention of the U.S. Department of Defence [12].

How were the buildings prepared for the controlled demolition? Under normal conditions, this would demand for a week-long work. We can only ass up in the fragments as they come to the surface. Even if that cannot be all, it is therefore valuable to see the report that 14 Art Students were in the World Trade Center Towers with Construction Passes [13]. Rivero reports that there were "art students" inside the twin towers months before 9/11 [14].

When Sharon assumed power in March 2001, Barak came to America. He supposedly came to the United States to work as a special advisor for Electronic Data Systems and as a partner with SCP Partners, a private equity company focused on "security-related" work - but perhaps this was only his cover. Some guess that his real assignment was to oversee the terror attacks of 9-11 [15].

Poisonous smoke

With the collapse of the skyscrapers, a poisonous dust was dispersed over Manhattan. It contained not only the pulverized concrete from the buildings but also asbestos from WTC-1. It seems, however, that it also contained more aggressive toxins, that will eventually claim many more victims than 9/11 itself on the day. According to Daily Mail [16], there are "already recorded 817 deaths of WTC responders from illnesses generated by working on the site ... 410,000 people were heavily exposed to WTC toxins causing restrictive respiratory illnesses and cancers." The paper assumed that the death rate from the fume would eventually be five times as high as that of 9/11, to which must be added a much higher incidence of crippling airway diseases. The Environment Protection Agency (EPA) had immediately after the attack declared it safe to work at Ground Zero without airway protection device. In addition to airway cancers, asthma, pneumoconiosis and sarcoidosis have reached epidemic levels.

To add insult to injury, the brave first-responders are left as ungratefully cared for as the wounded soldiers from 'Cheney's Legion' in Iraq, thrown away as a human disposable force, now simply disturbing. There were initially 1 billion dollars reserved for injured first responders, but this sum is rapidly eaten up by lawyers and has hardly been assigned to sufferers of sequential diseases [17]. In 2007, the New York Post reported that "WTC-Lawyer the 'devil's advocate' - James Tyrrell, 'master of disaster' ... have sucked \$47 mill. Out of the \$1 bill. WTC insurance fund ... money that should go to 10,000 cops, firefighters and other workers with illnesses blamed on toxic exposure at Ground Zero. It has paid just \$45,000 to a carpenter who fell of a ladder." In addition, the poisonous dust also landed in many more lungs than those of fire workers and police officers. According to New York City officials, some 400,000 people were exposed to ground zero dust and 71,000 have enrolled in a long-term health monitoring program [18]

Other discoveries from WTC

The Danish chemist Niels Harrit, along with eight international co-authors, described in 2008 the finding of unreacted thermite in the rubble of WTC [19, 20]. There is no benign explanation for the occurrence of thermite in the WTC dust. This finding supports the other evidence of controlled demolitions as the cause of collapse of the WTC towers. The evidence include video footage and hundreds of witnesses having heard explosions. Apart from proving the demolition, the finding raises the question of who had access to the

explosive and from where the demolition expertise came from. After all, It was a pioneer work; never before have so high buildings been extinguished into their footprints. Had they been empty (and not releasing toxins), it would have been worth an applause.

In 2007 it was revealed, that reported WTC-7's demise 26 minutes before it actually happened. On the video, the smoking building was still standing in the background. Journalists should have a good intuition, but fortune-telling is the job of others. Uruknet [21,22] wrote, "BBC has been forced to respond to footage showing their correspondent reporting the collapse of WTC 7 before it fell on 9/11, claiming tapes from the day are somehow missing, and refusing to identify the source for their bizarre act of "clairvoyance" in accurately pre-empting the fall of WTC 7."

Pentagon

Rumsfeld .. was so unconcerned, and unsurprised, after learning that two jet airliners had crashed into [WTC] that he continued with regular CIA briefing [23]. No evacuation was ordered inside the Pentagon, despite flight controllers calling in warnings of approaching hijacked aircraft nearly 20 minutes before the building was struck [24].

None of the surveillance videos, confiscated by FBI just minutes after the attack, have been given free, manipulated or not – also a confession.

Shankesville & Cleveland

A new video [25] make a convincing case that the supposed Flight 93 impact point is a bomb crater sitting over a pre-existing strip-mining scar. The wingscar was present since 1994, new was a central bomb. Moreover, the luggage was distributed from, the only part from UA93 ever to land by Shankesville. This place was therefore carefully selected long before 9/11 to be part of the show.

Remember that Cleveland is also a scene of the day. It is made so by several factors already known on the day, first of all the false bomb-alarm, with which well-prepared FBI blocked the tower while some jets were landing.

Air Traffic Control (ATC) transcripts reveal United 93 as being airborne after it's alleged crash ... Radar Coast Mode activates when a transponder is inoperative (or turned off) and primary radar tracking is lost [26]. As previously known, a plane with identical tail-marking as UA93 (registry number N591UA) is still flying.

A noteworthy hypothesis was raised [27]: The passengers from all 4 flights, AA11, UA175, AA77 and UA93 all ended up at Cleveland Airport (or rather NASA Research Center as an integral part of the airport), and not coincidentally, in the same planes were were told made emergency landings because of reports of a "bomb" aboard. A precondition is, that WTC was it by remotely controlled plane, Pentagon by a missile or smaller remotely controlled plane and Shankesville by a pre-placed bomb (there is good reason to believe all that). However, when the detective suggests that all the passengers were given "new lives and new identities," I must leave this dream. The 9/11 hindmen have proven, that they were capable mass-murderers. It then remains an open question how, when and where these witnesses were taken care of. Maybe the Polar Sea or Hudson Bay will give answer some day – or maybe it did already but TSSSH, it's secret.

Hijacker, al Qaida

Of the original, so-called hijackers, little has been written. Assuming (as I am sure) that there were no hijackers on 9/11, the verdicts on Mounir El-Motassadeq (extended in Jan. 2007 [28]) and Zacarias Moussaoui (appeal refused Jan. 2010 [29]) were wrong. Khaled Sheik Mohammed, Ramzi Binalshibh and many others max have admitted many atrocities while they were tortured, but that is what comes out of it. Fortunately, German interior Minister Wolfgang Schäuble had no occasion to let a civilian plane shoot down. Anyhow, there is still a full house in Guantanamo, and NATO-soldiers are fighting in Afghanistan because of 9/11, instead of in Israel. If Al Qaida (Al Queda) existed after 2001 is really a question, but it is good to have an arch-enemy – and a strange name for him, that does not smell too much of its offices in Pentagon and Tel Aviv.

The Late Osama (Dead Nemesis)

Osama bin Laden died on Dec. 16, 2011, bei Tora Bora in Southern Afghanistan, and he is still dead, but not if you ask those still looking for him. Fox reported his death 10 days later and forgot to 'orwellize' (delete) the page [30] – I saw it in 2007 and again today. Even the Time expressed doubt about the ghost hunt after 2001 [31]. It (the ghost) is currently used to justify the American's warfare in Afghanistan and Pakistan [32] and the Israeli's desire for a war against Iran [33].

Responsible Americans

The United States demand death penalty of those responsible for 9/11 [34]. Although I am opposing capital punishment, I could make an exception if this would logically call for the execution of Cheney, Bush, Silverstein, Rumsfeld and some Israeli, when convicted for mass-murder, conspiracy, attacking civilians and terrorism – but unfortunately, the mentioned culprits accuse somebody else.

Whitewash, Media

The doubt about, who carried 9/11 out, is considerable in all countries, although not reflected by the Mainstream Media. It deserves attention that the way questions are posed influence the way they are answered. Among the official believers, particularly, there are many forgetful. 30% of Americans Don't know when 9/11 attacks occurred - Apparently it occurred in October, by Hindu's and millions died [35].

The demands for a new investigation have increased – but another Whitewash Commission is not what we need. The time is simply not ripe for an independent inquiry.

Planes

On Sept 10th 2001, Flight 0078 (=N591UA) arrived in Newark from SFO (San Fransisco) at 6:54 wheel on time. However, Flight 0507, with the same tail number, 591UA departed Boston Logan for ORD (Chicago) at 7:39 wheel off time [36].

The aircraft [over Wash. on 9/11] was an E-4B, the US military's most advanced electronics platform ... The Air Force has four E-4Bs, and they are normally as-signed to Offutt AFB, near Omaha, Nebraska. Offutt is the home of STRATCOM, i.e., the Strategic Command ... three of the E-4Bs were participating in a live command-level exercise known as Global Guardian. The exercise is an annual event [oct-nov] ... The 2001 exercise started the week before 9/11 [37].

An earlier pilot of two of the planes confirmed an earlier-made evaluation: "I don't believe it's possible for... a so-called terrorist to train on a 172 [Cessna], then jump in a cockpit of a 757-767 class cockpit, and vertical navigate the aircraft, lateral navigate the aircraft, and fly the airplane at speeds exceeding its design limit speed by well over 100 knots, make high-speed high-banked turns, pulling probably 5, 6, 7 G's... I couldn't do it and I'm absolutely positive they couldn't do it" [38].

Warnings

From 2007 originates this message: A reporter for the daily Le Monde, [was arrested] on accusations of publishing state secrets ... French intelligence services had warned their U.S. counterparts of a possible terrorist plot that involved the hijacking of planes and crashing them into buildings about 8 months before 9/11 [39].

The Danish PM [P. Nyrup Rasmussen] was told that WTC would collapse 5-10 min before it happened [40]. Another warning not followed up.
